SKILLS

Programming: Python, JavaScript, Java, php

Backend: Django, numpy, pandas, rakeNLTK, beautifulSoup, matplotlib

Frontend: React, Redux, Tailwind, Bootstrap, ChartJS, Material UI, HTML, CSS, jquery, ajax

DevOps: Docker, Git, apache, gunicorn, nginx, linux, VPS, virtual machines

Tools: GitHub, JIRA, BitBucket, SourceTree, JWT, Postman, VSCode, XAMPP, sqlite, postgreSQL, mysql, FileZilla

Concepts: Functional programming, object oriented programming, design patterns, UML, single page applications, component based rendering, responsive design, version control, containerized deployment, REST APIs

SUMMARY

Seeking opportunity in Full Stack Application development in a dynamic team to work on challenging projects to grow my depth of knowledge and skill set in both frontend and backend development. My diverse career background with web development skills combined with improving French Language ability and Canadian work permit boosts my potential to contribute and grow in the software development industry.

I believe in project based experiential learning. My career vision is to achieve mastery in modern web technologies with a keen interest in adopting machine learning and DevOps skills as my career grows. For comprehensive information about my career background, please visit my personal website

PORTFOLIO

Project: Propalytics
Visualize your property data with meaningful graphical insights. Upload your CSV file and the app will show its graphical illustration. Developed with Django, Pandas, ChartJS, Tailwind

Project: Ad Finder Beta
Contextual ad generating platform. Finds relevant ads for a given blog or article content by keyword analysis. Built with Django, Tailwind, BeautifulSoup, RakeNLTK

Project: Electroverse Inc.
Single-page full stack e-commerce application being developed using python/django REST for backend and ReactJS for frontend combined with Redux state management library with JWT based authentication.
Source codes, demos, and feature details of my projects are available here

WORK HISTORY

PizzaPizza - Supervisor
Montreal • 02/2022 - Current

- Provided hands-on training to 4 employees on major skill areas including food preparation and serving, POS handling, inventory management, store cleanliness, food safety and hygiene.
- Raised yearly consumer satisfaction score by 11% by improving store service quality and customer feedback analysis.
- Identified and reported two critical software bugs with pizzapizza live order tracking system deployed on iOS

EDUCATION

Concordia University
Montreal, QC • 10/2021

Master of Science: Software
Engineering

**Shahjalal University of Science And
Technology**
Sylhet, Bangladesh • 06/2014

Bachelor of Science: Computer Science
And Engineering

CERTIFICATIONS

Received **Certification of Employability**
endorsement from **Concordia
University** Continuing Education on
following professional expertise:
● Collaboration
● Autonomy
● Adaptability
on Sep 2023

Sylhet IT Academy - Programming Instructor
Sylhet, Bangladesh • 01/2017 - 04/2018

● Provided programming lessons to over 120 students on wide range
on topics including basic programming, object oriented
programming, data structures, design patterns, responsive design,
server-side programming, front-end development, relational
databases, software development processes and more
● Hosted two successful programming and web development
workshops attracting over 250 participants from local high schools
and colleges leading to 21% increase in annual course enrolment.

Shafi Consultancy Ltd - Web Application Developer
Sylhet, Bangladesh • 02/2015 - 11/2016

● Designed and developed three core features of Employee
Management System by leveraging the power of php, javascript,
mysql combining with agile software development methodologies.
● Fixed more than 4 server side bugs and performed more than 12
issue fixing on UI layer after first version release.
● Provided assistance to tester team with designing and running
more than three critical use case test scenarios

TechnoVista Limited - Software Support and Maintenance Engineer
Dhaka, Bangladesh • 04/2014 - 01/2015

● Collaborated effectively with cross-functional teams, including
developers, project managers and end users to prioritize project
goals in order to meet key milestones on time.
● Provided software demonstrations and comprehensive training
sessions to software users and related stakeholders indicating 95%
improvement in system adoption among end users within two
months.
● Performed user acceptance testing, identified and followed up
critical bugs early resulting in smooth integration between system
modules and 89% reduction in post-launch bug reports.
